- Nestor Cohenca, DDS; Rafael A. Roges, DDS; Ramon Roges, DDS. The incidence and severity of dental trauma in intercollegiate athletes. American Dental Association, 2007.

# WHY CUSTOM-FABRICATED SPORTS MOUTHGUARDS?

Unlike disposable mouthguards, laboratory-made PlaySafe mouthguards provide the wearer with a superior fit that is specifically tailored to each individual based on their

- sport
- orthodontic condition
- gender
- age

Because of this thorough tailoring, your star athlete can focus on winning the game, while other disposable mouthguard wearers might be struggling with

- difficulty breathing
- inability to communicate to teammates
- complications swallowing
- overall discomfort
- chewed-through material

DISPOSABLE  
MOUTHGUARD

A broken tooth, cut lips and even concussions caused from a blow to the jaw can happen to any player, whether professional or amateur. Score big with a product that has the power to protect against serious dental injuries!

“A 2018 STUDY FOUND THAT MOUTHGUARD USERS WERE BETWEEN **82% AND 93% LESS LIKELY TO SUFFER DENTOFACIAL INJURIES.**”

- American Dental Association [Internet]. Chicago: American Dental Association; c2019. Mouth Guards [cited 2020 Aug 10]. Available from: <https://www.ada.org/en/member-center/oral-health-topics/mouthguards>.

**This could have been prevented!**

This serious trauma was caused by an elbow blow. It could have been avoided if the basketball player had been wearing a PlaySafe mouthguard.
